To Represent Ourselves Professionally

- Disagreement is healthy; conflict is sometimes necessary to resolve problems. When discussing access issues, whether at public meetings or in private, we shall strive to keep the discussion based on facts and not allow ourselves to be drawn into emotional, negative responses. We will keep to the moral high ground.

Who we are:

- We are a group of like minded individuals with a desire to enjoy the parks and wilderness areas whether it be on foot or bicycle. We ride, hike, build and maintain trails so that others can enjoy and respect them too. We are the local Chapter of IMBA (International Mountain Bike Association)

Why we do it:

- The club was originally formed in 1988 as the “Concerned Cyclists of Crystal Cove” to help with trail conflicts between user groups and to bring together the unified voice of mountain bikers in Orange County. Those conflicts still happen today so we are still at it.

How we do it:

- With the support of the local land managers we bring together the necessary manpower to build and maintain the trails they would like worked on.

What: Blind Caves

What (cont.)

The Bell Box placards encourage riders to borrow a bell and attach it to their bike. They ask that the bells be returned to the Bell Box and/or be kept for use on subsequent rides. An option for internet donation to help support this project is referenced on the placard because of the large number of bells needed to keep this project ongoing.
